About Us

DGR Energy Change, it is inevitable. It's never too late to be a part of something very worthwhile. We truly believe that the light of the sun is the purest form of energy that can be converted to fuel our appliances and more. To meet the **exponentially growing demand** of electricity, we have to adopt the best naturally available alternative of energy out there. The brightest star is our brightest Hope of Light in these challenging times.

DGR Energy was born from the successful struggles in the labor commissioning of solar photovoltaic plants as Darsh Energy Solution (2019) and Greentech Solar (2016), the combined and much-improved version of us has emerged as Darsh Greentech Renewable Energy Pvt Ltd hence **DGR Energy Pvt Ltd**; right now we are offering a single stop solution for all solar PV related quarries, as **EPC. DGR Energy Pvt. Ltd.** works in the area of quality installation and commissioning of Solar Projects, Trading of all solar equipment, Operation and Maintenance and light to medium fabrication works.

We are offering our services from residential roof top projects to industrial and from internal wirings to **external heavy wiring solutions**. Over the time we have developed well qualified and trained teams for any scale of work.

Our Mission

To be in the elite club for the **distributed solar energy generation** and installation with efficient efforts every time. Let's grab this opportunity and electrify our premises, in this way we can convert one of the basic Liability in to an ASSET.

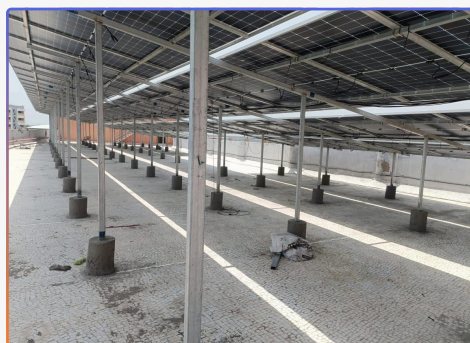

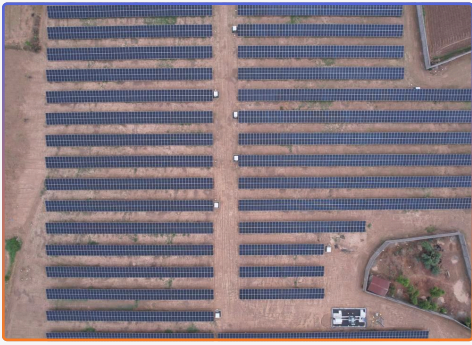

Our Vision

The biggest and **cleanest source of energy** from the beginning of time, till the end, is and will be the SUN. We will make sure to contribute our bit in this constantly upgrading renewable green energy by harnessing the unlimited energy of the Sun.

Our Prior I&C Projects

Installation & Commissioning Projects

Solar Rooftop Structures

Asbestos Roof Mounting System

Aluminum Tin Shed Solar Mounting Structure

Panel Mounting Tilt Angel Structure

Solar RCC Roof Top Structure

Galvanized Solar Module Mounting Structure

Solar Panel Mono rail Structure For Tin Roof

Solar Panel Module Mounting Structure

Ground Mounted Structure

Seasonal Tilted

Suitable for large MW solar installations

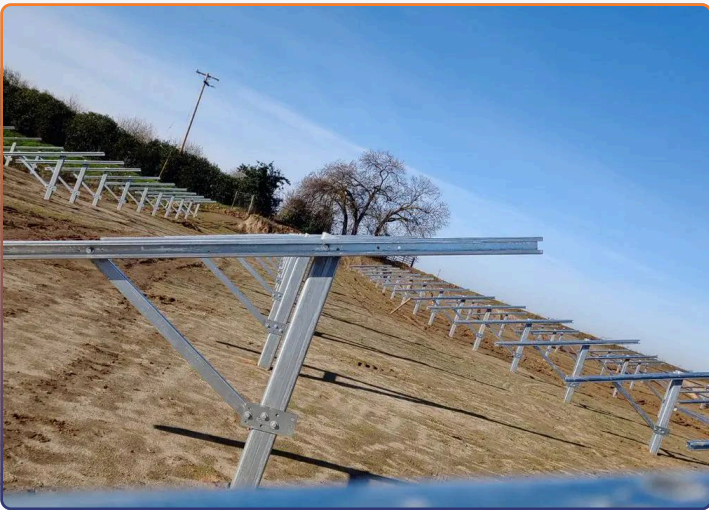

Structures made from roll formed steel profiles, that are hot dipped galvanized to 80 microns thickness also galvaliumt magnelis materiel 25 years warranty on structures Able to sustain wind loads of 150kmph Foundations can be reinforced concrete, ground screws, or rammed posts

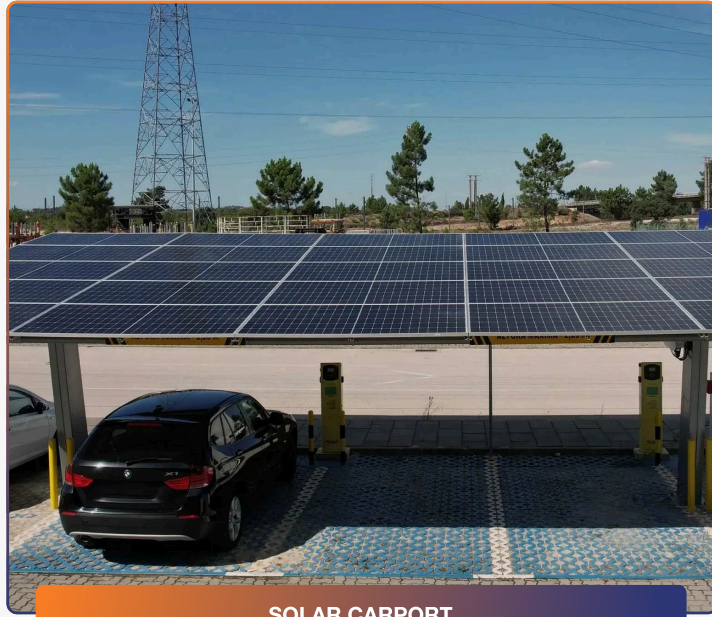

Ground Mounted Structure

Seasonal Tilted

Suitable for large MW solar installations
thin film panels

Other Mounting Structures

SOLAR CARPORT

Key Milestone

- ✓ 30 MW Residential EPC Projects
- ✓ 105+ MW Industrial EPC Projects
- ✓ 8000 Satisfied Customers
- ✓ 100 MW Solar Project I&C Experience Across India
- ✓ 122 Skilled & Trained Employees Across India

Pune

📍 307, 3rd Floor 34/a, Gulmohar
Centre Point, Nagar Road
City : Vadgaon Sheri
District : Pune - 411014. (MH)
